## Experience

**Brillica Services Pvt. Ltd**

July 2023 - September 2023

Frontend Web Developer Intern

Dehradun, Uttarakhand

- Developed responsive web application using React.js, Redux, and TailwindCSS, improving UI performance and load times.
- Integrated RESTful APIs and third-party tools to enhance functionality and ensure seamless data flow across the app.
- Built reusable and accessible UI components using modern React patterns and ShadCN UI.
- Collaborated closely with the backend team to align frontend logic with database models and API endpoints.

## Projects

**SnapMyShop - E-commerce Web Application**

May 2025

Tech Stack: React.js, Tailwind CSS, Redux Toolkit | [Live Demo](#) | [GitHub](#)

- Developed a fully responsive e-commerce website with product listings, categories, and cart functionality.
- Implemented clean UI design and dynamic rendering using React components.
- Added features like add-to-cart, product filtering, and search functionality for improved user experience.
- Ensured cross-device compatibility and performance optimization.

**CoinSky – Cryptocurrency Price Tracker**

January 2025

Tech Stack: React.js, Tailwind CSS, Tanstack table, Redux toolkit, Redux query | [Live Demo](#) | [GitHub](#)

- Developed a responsive web app to display up-to-date prices and stats of top cryptocurrencies using the CoinGecko API.
- Implemented real-time data display, and individual coin detail pages.
- Focused on clean UI, smooth user experience, and mobile responsiveness.
- Demonstrated skills in API integration, state management, and dynamic UI rendering with React.
